## **Where to Go for Assistance**

### **Missouri Department of Mental Health**

Established in 1974, but with a history of serving Missourians dating back to 1847, the Department of Mental Health works to prevent mental disorders, developmental disabilities, and substance abuse; to treat, habilitate, or rehabilitate persons with those conditions; and to educate the public about mental health.

For you, or someone you know, who has a problem with alcohol or other drugs, or gambling addiction, the Department of Mental Health provides services through a network of contractors who operate treatment facilities. To find services nearest you, turn to...

**Division of Alcohol and Drug Abuse...Page 2**

For you, or someone you know, who suffers from a mental illness or disorder, including schizophrenia or profound depression, or has been ordered by the courts to receive evaluation and treatment, the Department of Mental Health provides services through three long-term care and four acute care facilities, one children's psychiatric hospital and one children's residential treatment center, in addition to 25 community mental health centers located around the state. To find the service nearest you, turn to...

**Division of Comprehensive Psychiatric Services...Page 5**

For you, or someone you know, who has a developmental disability such as mental retardation, autism, cerebral palsy, or another serious disability that occurred before age of 22, the Department of Mental Health provides services through 11 regional centers, six habilitation centers, and many contractual providers. To find the regional center nearest you, turn to...

## Division of Alcohol and Drug Abuse

573-751-4942 573-751-7093 (TT)

*Michael Couty, Director*

The division's services are delivered through a network of providers coordinated by district offices. The district office staff can direct you to the provider in or nearest your community that can provide services to those who meet the eligibility criteria. District office information is listed on page 3.

### Treatment Programs

Individuals who meet the eligibility criteria have access to a variety of treatment options. In addition to detoxification services, the division offers residential and outpatient rehabilitation, special services for women and adolescents, as well as programs that emphasize substance abuse prevention.

### Prevention Programs

The Missouri Division of Alcohol and Drug Abuse works with communities to help develop resources to prevent alcohol, tobacco, and other drug problems. In each community a "Community 2000 Team" composed of local leaders provides leadership and plans local programs. A network of Community 2000 Support Centers and statewide services provided by ACT Missouri support the local team by training them and helping them with their action plans.

Some of the specific types of programs that Community 2000 teams start in their communities include the following:

Alternative Activities  
Student Assistance  
Parenting Skills  
Media & Public Awareness  
Cultural Diversity

Volunteerism  
Community Awareness  
Media Campaigns  
Empowering Youth  
Social Policy Initiatives

**Compulsive Gambling** – The division provides outpatient treatment services to compulsive gamblers and their families throughout Missouri. Municipalities where riverboat casinos are located are asked to contribute a portion of their taxes to the Compulsive Gamblers Fund, making this treatment possible at no cost. The division also certifies compulsive gambling counselors.

*Anne S. Deaton, Ed.D.*

The Division of Mental Retardation and Developmental Disabilities (MRDD) is responsible for ensuring that the citizens of Missouri have access to services and supports relating to prevention of disabilities, evaluation, habilitation and rehabilitation.

The Division achieves its mission through service coordination and support staff in 17 facilities. Additionally, the Division has contractual arrangements and oversight responsibilities with programs funded, licensed or certified by DMH.

People of all ages are eligible for Division services. The Division's 11 regional centers conduct comprehensive evaluations to determine an individual's eligibility according to state law. The law requires that a person's disability must have occurred before age 22 (during the developmental period) and that it is likely to continue indefinitely. Charges for the cost of services are determined by using a table that evaluates family size, income and the type of service.
